

driving, at about 5 meters away the bizarre figure again appeared. Stunned at what he was seeing, Berrios almost lost control of his vehicle as he swerved around the figure, almost upending the vehicle.

The strange creature had what appeared to be the carcass of a bloodied dog clutched in his jaws. The creature suddenly jumped and disappeared into the brush. Berrios described the creature as about 1.50m in height, with large hind legs like a kangaroo, small curved front arms that ended in claw-like protrusions, a spiky dorsal fin on its back, and a tail resembling that of a rattler on a snake. The facial features were also bizarre; it had a wolf-like snout, several sharp rows of teeth, and fierce-looking red eyes. It jumped a height of about 5 meters and disappeared from sight.

21-year old police officer Leonardo Samaniego Gallegos was patrolling a section of Alamo Street, when he observed what appeared to be the figure of a woman totally dressed in a black cloak-like outfit descend from a nearby tree towards his patrol car.

She appeared to float towards the car at very high speed. She had large black eyes without any pupils. Terrified, he drove away from the area but was chased by the flying apparition. He called for assistance over his police radio. The tree the strange figure descended from was about 6 meters high. The strange flying creature approached the police car and impacted onto the front windshield, pushing it inward, apparently trying to get in using what appeared to be large pointy claws. At this point Gallegos lost consciousness.

In the videotaped interview, officer Gallegos describes the eyes and black gown as in the news article, but adds the description of a "helmet" or headpiece it was wearing that curved downward to a point at the back of the creature's head. Also, a police officer from Santa Catarina, Jorge Contreras, declared that he and two more policemen

from the Regia police saw exactly the same flying being that officer Samaniego saw; but three days before. They saw it flying and decided not to say anything, until they heard about Samaniego's case. Norma Alicia Herrera who lives in Colonia La Playa declared in a TV interview that she and her brother also saw the flying humanoid at daytime and that it looked weird. She said that her brother was so stunned by the sighting that he was sick for almost a week afterwards. Another neighbour in that sector also videotaped, several days before, a strange flying humanoid, and gave the video to the TV station.

Maria Luisa and Fernandez Morales, residents living in the of the city reported that an unknown creature killed at least 50 of her hens, which she kept in her backyard. The witness, who sold chickens for a living, heard a loud ruckus coming from the pen and ran out, only to confront a very strange creature similar to a "tiger", but upright and bipedal in nature, and emitting loud grunting sounds. According to the witness, the mysterious creature jumped over a wire fence and ran from the area, leaving a trail of blood behind. It only took several minutes for the creature to kill the chickens. Also, residents from the town of Texan Palomeque have reported seeing what they describe as a "wolf-woman", which has also killed and decapitated hundreds of chickens in the area.

70-year old Domingo Ramos awoke to the sounds of very loud commotion coming from rabbit cages. Looking out the window, he was stunned to see a bizarre winged bird-like creature with long wings and huge protruding eyes apparently "sucking" the blood out of the unfortunate rabbits. Ramos described the creature as about 5 ft tall that also attacked a goat, which it left wounded and weakened. Ramos yelled at the creature, which then rose up and flew away in an unknown direction. The terrified witness described the creature as having "semi-human" facial features. He notified the police in the morning. ■

2 New reports from Argentina

FARMER SEES UFO AND OCCUPANTS

It all happened on the Tin Tin road on December 16, 2003 at midnight, some 120 km west of Salta, the gateway to Cachi, which crosses the Los Cardones National Park. "It was incredible. We could see an object with impressive lights, side by side, spinning in a circle at high speed. Then other lights appeared which came and went over the same spot. It made our jaws drop." These were the first words uttered by Julio Rafael Espinoza, a farmer and shepherd from La Poma.

In Cachi, on the Tin Tin road he travelled with 7 other people on a bus, among them a 5 year-old girl. That

Tuesday, the passengers on the bus were Benito Salva and his father, Ricardo, and four other men, Espinoza and his young daughter Tamara, aged 5. The main witness to the events, Julio Rafael Espinoza, 39, told his experience to *El Tribuno* only last Friday.

All of them witnessed the strange and fantastic event. This location was not only the site of a new UFO sighting. This time, according to the eyewitness, the phenomenon was accompanied by the strange manifestation of humanoid creatures walking stealthily amid the scant vegetation of the Puna. At the entrance to the Tin Tin road,

some 400 meters to the right in the direction of Cerro Negro, Benito Salva, the vehicle's driver, said: "Hey guys, look over there", before parking the bus, while the travellers looked through the window towards the indicated spot.

Espinoza says that he managed to climb on top of the bus, but curiosity got the better of him and led him to jump off and walk toward the luminous phenomenon. A stunning tale followed. "Upon reaching a bramble, in spite of the darkness, the landscape was very well defined. I couldn't go on any further.

I was moving away from the road and I was getting scared when my eyes started to see something that couldn't be made out clearly at a distance."

"There was a device measuring some 100 meters wide resting over some kind of struts or legs, which kept it some 10-12 meters off the ground. Some sort of hoses emerged

from its middle, with lights on their tips. Suddenly, the lights on the object went out and these strange beings appeared. They walked slowly in single file, they were thin and their glow was so powerful they blinded me.

At that moment I hid behind a bramble and I could see when one of them jumped onto a bramble. I don't know how he did it and he began to pull pieces off it, as though taking specimens. "Some twenty minutes had gone by.

It was then that Espinoza decided to return to the truck to report what was going on. "When I told them what I'd seen, they told me that they couldn't see the creatures because they were very far away. However, they saw the luminous phenomenon, which was visible from the roadside," he concluded. ■

Human-like aliens observed taking a survey. 23/02/03 Las Pailas, Salta, Argentina.

Time: 0900am. **Original Source:** *Gaceta Ovni*, June 2003.

24-year old Milagros Linquin had gone into a rocky hillside in order to retrieve her goats, when she noticed a shiny object on the nearby hill. Close to the summit she noticed a metallic object similar to a bus, rectangular in shape with numerous visible windows and doors on one of its visible sides. She counted about 8 windows on the craft. The object appeared to be made out of a shiny metallic alloy, which reflected the rays of the sun.

Around the craft she noticed other shiny objects, square in shape, some bigger than the others. She counted about 14 of this square metallic "covers". At this point, her father, 74-year old Don Linquin came up and also noticed the shiny metallic object.

In the meantime Milagros had climbed a bit further and was now closer to the object. At this point both witnesses noticed several human-like figures wearing white tight-fitting garments moving around the object, apparently working on the shiny metallic covers or plates. There were about 6 figures in total. Don Linquin also noticed, a little further down from the summit, three additional human-like figures. These were dressed in black tight-fitting outfits, and appeared to be looking around and inspecting the surroundings. After about 30 minutes, Milagros climbed higher in order to approach the object and its "occupants" but when she did, the whole scene appeared to have vanished. Later, while checking the supposed landing site, a deep rectangular track was found on the ground. ■

Two New Reports of humanoid activity from Eastern Europe

that convey an Environmentalist message.

Eastern Europe still appears to be having what could be called classic contact cases. That is, an encounter where there is an obvious landed disc on the ground with occupants who are dressed as crewmembers. There is no ambiguity evident. These creatures look and appear as aliens on the ground. This endearing resemblance to the Western European and American classic reports of the 1950s and 1960s may be the result of many post-communist rural communities displaying their relative cultural innocence. Whoever these alien entities really are, they appear to recognise the right tone to play along with us. They follow the expectations of how an alien should act; the messages they convey are, shrewdly, simple ones.

Are these hopeful contact messages? Why are the aliens apparently talking about our lives to us, gently raising topics in casual conversation that

may have great importance for us? Always, the detail of the message broadly relates to the capability of the witness.

The best hope is for us to gain knowledge of a clear alien intent, and to redefine the content of their communications with us. In the meantime we need to find more capable witnesses who are not presently accounted for in the globally gathered reports. It may well be the case that the working class, are far more likely to disclose an alien contact and worry less about maintaining reputations.

This is pure conjecture, however. Looking at the majority of the narratives of contact transcripts, aliens rarely elaborate unless prompted to do so by intelligent questioning. Here are two recent Eastern European cases that consider our potential environmental calamity during "conversation" with alien humanoids.
