DECLINE AND DESTRUCTION OF THE ORION EMPIRE

Five hundred thousand years ago, the Orion Empire had reached its pinnacle peak in technological development. Yet, the negative intent of its leaders had begun to crystallize even before this time; the people had turned away from spiritual concepts of life, and thus the destruction of Orion was determined!

Dalos, a great spiritual teacher from the Confederation of the Pleiades set out to change this negative state and condition of the Orion star systems, with the impending possibility of a galactic war – a war of the worlds.

This book is the story of insanity of the Orion leaders and its people – of the Emperor Tyrantus; how he contrived to detour the positive plans of Dalos by countering his love with hate and implementing cunning techniques of torture to his person.

The continuous and constant love and compassion for the souls of the Orion people is illustrated by the return of Dalos to the Orion system for twenty-five lifetimes.

In this manner the great powers of the forces of Light, the Unariun Brotherhood, were inscribed onto the psychics of these people, who have now incarnated on Earth to help spread the truth of the Unariun Science of Life.

Introduction

By URIEL

No doubt this book will be a 'first' of the Unarius Library for some persons, so one would need to know of its origin, authors, etc. To this then, let it be said that this volume or any other of the Unarius books are **not fiction** but rather, all are indeed **factual and scientific** in nature.

Dr. Ernest L. and Ruth E. Norman were, since 1954, in mental, psychic communication with minds - the leaders of many other worlds - planets outside of this solar system, and yes, worlds in other galaxies as well! Dr. Norman made his transition in 1971, after channeling to Earth seventeen volumes. Immediately after that time, the channelship was **turned** over to Ruth Norman or Uriel, who has added to that number of books until today, March 1, 1984, seventy-five volumes, and still going strong! In fact, we are at this time, receiving transmissions at a far more rapid rate than ever before. What is meant: Communications are received presently five and six times weekly in one and one-half to **three-hour** sessions.

Due to the unique and exacting manner and way these books are channeled, a word of explanation is in order. It should be known by any reader of a book of this nature that every soul or being is dual in nature and lives **not only** on the Earth world but he does, in his energy body or psychic anatomy, live at the same time in the 4th dimension. In this instance, the Higher Self of Uriel, due to her expanded development, lives not

- About the Author -

The contents within these pages were dictated verbatim by the many master scientists living on a higher spiritual planet called Eros, and who, through mental transmission - and by means of a vast crystal (wireless) communication system, transmitted the dissertations first, through the consciousness of one Ruth Norman (called Ioshanna) - who, in turn, transmitted in a demodulated form, the words to her two other (so-called) coauthors - long time students of Unarius (and of Ioshanna) - who, in turn, relayed the words which had been reflected upon the surface of their minds as they voiced them into the microphones of recorders.

Ioshanna was, for nearly twenty years, married to the mental genius, Ernest L. Norman, who brought the great Unarius library to earth through his own great Master Mind. He has returned to the higher spiritual worlds where He overchadawa and directs the great Spiritual Hierarchy. Thus, it could be more factually said, He, along with the assistance of countless Higher Beings, has inspired and written this book - as well as subsequent volumes - and which are already being transmitted.

The two persons, Thomas Miller and Vaughn Spaegel, have been for some ten years, devoted dedicated students and have now become capable of this assistance and cooperation. Credit and congratulations are thus due these fine sub-channels, inasmuch that they are the very first of many, with whom the Channel Ioshanna shall, in the future, likewise transmit higher learning.

Thus, this is a "first" on planet earth to use this vast interplanetary communication system, which has just been (after more than 175,000 years of endeavor by more than a million persons) completed. This book is proof positive of the effectiveness and perfection of this interdimensional contact system. The communication system is one of permanency - or an infinite and eternal installation! It is placed in (so-called) space. Time to come will prove the countless persons using (through the consciousness of Ioshanna) this great crystal system - referred to in this book as the luna.

Thus, now we bring factual proof of intelligent life on other planets - intelligence far beyond earthman's wildest dreams . . . intellects who are willing to share their great wisdom with the earthman!

The book (a Unarius publication), Bridge To Heaven, relates further re Ruth and Ernest Norman.

Vaughn too, has written his own remarkable personal over-coming and life story, in his book - now being published, The Victorious Search For The Soul (or The Return of Pontius Pilate).

Thus, although the names Norman, Miller and Spaegel appear as authors, we have merely served as channels for the great Infinite Minds of the thirty-three scientists, who dictated this volume from far-distant planets, brought especially for the earth scientists.

We three here do especially trust that their minds shall be open and receptive, for in so doing, they can - with the able assistance of these Higher Minds - create a new earth world free of the vast negation, of lack, and misery, the illness, starvation and suffering and most of all, the ignorance with which the earthman is now so tightly enmeshed and wired.

Listen, brother scientists, to your Spiritual Brothers on Eros, who stand ready to extend to you, all necessary knowledge, all know-how and the powers to very quickly, change your rapidly deteriorating world - and to set it upon a progressive evolution, regenerative in nature - peace filled,

Norman, Spaegel,

In regard to the manner in which this book TESLA SPEAKS was written, let it be said that it was not done in the usual manner of planning, effort, trial and error or of writing either with pen or on the typewriter — a thousand or more sheets, then the normal (for the earthman) way of sifting out the comparatively few pages — possibly two hundred or less, of the several thousand that the author later feels adequate to be installed within his book. This was not the method used and it is felt important to relate the manner and way in which this book manifest for this too, is a definite proof of the principles, the concepts of the Unarius teachings.

First, we three — Vaughn Spaegel, Tom Miller and myself (Ruth Norman or Ioshanna) — were not aware of any plan for the book. Vaughn and I were talking when he, with no conscious preparation, slipped into a higher state and began voicing that which was being transmitted from my Higher Self, then reflected into his consciousness. The first dissertation came, not in rapid fire, but rather slowly; however, all subsequent transmissions which he and Tom — who was soon called into the act — were able to speak, related the information as rapidly as it flowed into their minds — sometimes even faster than their lips could form the words.

The dissertations were recorded (at the very same time) on Cassette recorders, filling one tape after another. It could be told how, on two occasions, something happened to either the tape or the recorder; we missed making sure it had been turned on or there was an inferior tape, only to find the scientist at the other end (on the higher world) retranscribing or repeating his dissertation — perhaps not word for word, but the same in essence — which proved their perfect attunement with we three.

Surely the text itself will stand as positive proof for this "first on Earth" demonstration, receiving not only messages from some electronic means from some distant planet, but that the messages are of such dynamic or explosive nature; such indeed that will change the world for the better in a comparatively short time.

The very first words and discussion were received at 12 noon, August 2, 1973. During the next two weeks, the recorded tapes were transcribed (by the two students Dorothy Ellerman and Shirley Miller). Another student (Helon Moore) worked on the machine — as all Unarius books were so done — called the varityper — which sets the type and right-hand margin. Now, August 28th, all pages have been completed, ready for making the many thousands of duplicates. It is now but a matter of ferreting out our typographical errors and the entire book will be on its way to be photographed and duplicated, the entire procedure requiring less than one month!

Is this ever a record for any book to manifest — or an all-time first?! We are very sure so, but even more are the vital scientific contents herein. Read, dear reader, and renew your faith in your new world of the future — and we refer to the very near future.

Even more important is Vol. IV, TESLA SPEAKS! It is now nearly completed — which describes to the scientists in detail, including drawings of the electronic mechanisms — instruments so told in these pages of Vol. III

All of this preliminary information is, of course, added proof of the great inner help which the vast Intellects on this higher world can and do extend. They are, of course, aiding in our every move to get this vital word to especially the men of science on earth — those toward whom the earthmen look for guidance.

The great overshadowing Mind, the Avatar-Leader on these vast inner worlds (Archangel Raphael) has just completed (Dec. 6, '71) an earth span during which (for the last near twenty years) He (as Ernest L. Norman) brought to the earth the great Unarius Library, and which is a forerunner or preparatory course for this serious TESLA SPEAKS. He has now returned to those higher spiritual worlds where He supplies the power and wisdom whereby the many thousands of Higher Intellects carry out the vast Infinite Plan — a plan set in motion over a millennium ago. Thus enters the new Aquarian Age for mankind on the earth worlds!

— Ruth E. Norman (Ioshanna)

COMMUNICATIONS FROM OUTER SPACE

This book, **Communications From Outer Space**, is not just idle conjecture of the possibility of the existence of life in outer space on terrestrial-like planets but is, in fact, a direct contact with an advanced technological and spiritual civilization on a planet 2500 light years from Earth, the planet Vix-all.

The reader is taken on board an interstellar spacecraft and introduced to the seven astronauts and their leader, Alta, who is an advanced scientist and interplanetary Ambassador whose purpose is to acquaint the earth-man with the soon-to-come future changes on earth at the close of the 20th Century. One is the actual landing of 32 space craft from earth worlds in other solar systems of the Milky Way Galaxy.

By bridging the gap in man's conception of himself, formerly as a physical linear dimensional mass, to a 4th dimensional nonphysical energy system, **Communications From Outer Space** extends the frontier of the mind for the individual to recognize that the only barrier to understanding is ignorance of the nature of man and of his purpose in the universe.

Introduction

Alta: "In the warp and woof of life, Infinite Intelligence is an alternate current, pulsing from its adjoining and its opposite dimension; adjoining dimensions opposite in their intent, yet altogether having a basic purpose and a relativeness that is the whole nature of life and the learning factors in which individual man gains a grasp of the duality which is the stuff of life. This duality is a factor which has caused great consternation and in fact has involved mankind in many aspects which can be considered to be mental disease. The knowledge of the duality of man as he has become one or the other of this dual nature is the internal core which is the momentum, libido - the drive of Infinite Intelligence.

"The consciousness of the atom, the consciousness of whatever contains the spark of Infinite Intelligence, has a duality. It must have such duality to exist: It is the inner and the outer; it is the esoteric and the exoteric. It is material and spiritual. In many respects the nature of this book, itself, is evidence of this duality.

"We can explain in this fashion: The esoteric or the spiritual minds that are the authors of this book, who, having that completeness of their understanding of Infinite Intelligence, are conscious of this duality. They can provide the broad scope in which and of which the information is related. They are able to bring out the factors of life which are contained in this duality; the factors of life which are the base qualities of the negative quotients that have lived within mankind in his psychic body and which have become his
