

24 OCTOBER Year 1977

TO JACQUES WEISS

I announce you personally that Makiventa Melkizedek is now present on Urantia. 1978 will be the year of the official revelation of my presence here. Until now, only half a score of Urantia mortals have been advised of my presence on Urantia. If you have received no communications on this subject, I inform you that I arrived on Urantia in the year 1960 of the planetary time in a Uranbatia (merontial center) located in Tibet in the zone 35 X 89 where I remained in merontia form during a cycle (1) amidst Midwayers, specially merontialized Urantians of the cosmic reserve corps, material non urantian humans specially merontialized, and still others.

In the year 1967 I have been transposed at the level of the materitia in the likeness of earthly humans by receiving a body similar to yours, and I left the uranbatia, traveling on foot from Tibet to Spain (1967-1971). I divulged and taught the way leading to the light, and lived experientially and personally the life of the Urantians which I met, according to the order formulated to me by Mikael before I went on Urantia. Considering that this planet can no more allow itself a single deviation from the cosmic integration, Mikael decided that I must live the life of the human creatures of the planet of which I should become responsible and cosmic supervisor from the year 1995 U.T. (2) onwards. (At the same date Mikael will return to Urantia for multifarious aims).

Accordingly, from 1967 until 1995, I am present on Urantia endowed with a material body similar to yours and I am placed exactly in the same conditions than any Urantian, namely without any special power or help, and without maintaining any contact with other Melkizedeks nor any other cosmic Master. Nevertheless, the transconceptual communications which I receive periodically for a certain aim are all emitted by my Father Melkizedek. The fact that I don't have any power has also been decided in order to palliate all the problems of deviations

(2) Urantia Time

by preventing definitively the possibility of furnishing "proofs" of the way of cosmic integration to the skeptical Urantians. Everything from 1967 to 1995 will be placed under the sign of a-proof (I) in all the domains touching my planetary experiential mission. It is real and true that Urantia is presently torn between the suicidary materialism and atheisms of the scientific societies of production-consummation, and the spiritism of witchcraft cultivating evil and the clownish sects parodiating the reminders of spiritual impulse of certain simpletons who adore arrogant deranged people who take themselves for envoys and representatives of God on earth in order to dominate them.

Science supervised by politicians is under the sign of power. The chiefs of sects are under the sign of power, as are also the false prophets. Almost all the Urantians wish power, some power, a might in order to dominate others. It is in order to avoid all problems that, being materialized from 1967 to 1995 on Urantia, I am wholly deprived of powers and disconnected from my state of cosmic Master Melkizedek. Until the meeting with Mikael, nobody will have the slightest material proof of anything, because faith should be the only and unique reality during this very delicate epoch in which everybody always waits for proofs in order to believe or accept.

From January 1972 to September 1973, I moved about in the Americas, from Argentine unto Canada, continuing my living experience in order to attain the true knowledge of the human beings of the planet of which I should be the cosmic supervisor. For I must know the Urantians. I must put myself in their place. I must understand their attitudes, their reactions, their aims, in fact their position "seen from their side" and "seen like them".

In order to qualify myself and be worthy of the state of Planetary Prince of Urantia, I travelled through the Mediterranean countries from September 1973 to July 1974, going all around the Mediterranean Sea in order to know the Arabic peoples and those of Eastern and Western Europe. From July to September 1974 I was in Mexico, and thereafter in France until June 1975. It is there in France where I wrote a first book of communications intended to be shown to the persons able to receive these messages and whom I met afterwards.

In June 1975 I received a communication from the General Governer residing on Urantia informing me that I should go to Kashmir to meet a person who would be capital for me during my material sojourn on Urantia. I went there, and on August 7, 1975 I met an Urantia girl who felt herself immediately concerned by my person and the vibrations that I irradiated. And on my side I received a communication confirming that she was the right person. In fact, before going to Urantia for my mission, I had chosen her among the earthly women as the one with whom I would live my life during my materialization. Since this August 7, we are constantly together in our Urantia life. Her name is : "Kosmika Maridios ". She rises more and more on the way of cosmic integration by her personal qualitative ascension while ascending her circles of growth of the personality. I learned later that she belonged to the Reserve Corps of Destiny in which she occupies a very important place. She will be the Urantian who after 1995 (date at which I shall be dematerialized) will, as embassadress, humanly represent the cosmic Masters attached to Urantia and its Planetary Prince.

Uppergund

On Friday 15 August 1975, an exceptional fact happened. Kosmika and I were in a Himalayan Valley of Kashmir named Uperdug, at an altitude of 2850 meters. In six hours, we had climbed a mountain up to an altitude of 3800 meters, but on the top we were surprised by fog, rain, and the night. We remained blocked at the height from 5 p.m. until 5 a.m., namely all the night, bent in two under an inclined rock and clothed only with trousers of light linen and a just as light indian tunic : that was all. The night temperature was about zero centigrade. In short, we survived, and sometime later I received a communication from my Father Melkizedek informing me that he had intervened in urgent help to accomplish an act of cosmic exception preventing us to die, thanks to an arrival of cosmic energy in our material bodies. On this point I specify the situation concerning the material body with which I am endowed : it has been created in 1967, and unless counter-communication, it will be annulled in 1995 and will have served as support for my material presence on Urantia during 4 cycles of the Urantia time (I). This material body is similar to those of the hu-

mans, but it has been decided that the body of an ascendant Urantian on the cosmic way would be its model, and that mine would be his double. (I met this man in 1974 and since that time he lives in the Amazonas).

My present material body is different from the one which had been given to me during my first materialization on Urantia. It is of another kind. It contains a vital plasma, but different from yours, were it only by its quality of being sterile or not according to the needs, the times, and the situations. The rate of constitutive degression (aging) of this material body is different from yours, for it is much slower. The stage of degressive advance of my body when created in 1967 was equivalent to 3 cycles (I) of age of the body of an average human Urantian. Endowed with this material body on Urantia, I receive only a few communications from my Father Melkizedek and have no other contact with other cosmic Masters. This material body possesses peculiarities such as vocal cords allowing audible vibration on more than 4 octaves

From September to December 1975, Kosmika and I travelled through the Middle East, from Italy to Israel, passing through Cyprus. A communication had asked us to visit the monastery of Mount Thabor in Israel. In the book of the monastery, at the date of Monday 6 October 1975, you can see mentioned the passage of Kosmika-Maridios, native from Urantia, and Taruka-Taokristos (my present name of material human) native from "Taruk " (meaning Stars in Kashmiri).

On December 22, 1975 I was dematerialized from Urantia in order to go to Uvantia (Venus) for a few moments in order to meet certain Uvantians ascenders of the way. Uvantia is presently inhabited by material human beings coming from another planet which they left. Uvantia is classified as a modified evolutionary planet, and by virtue of this it represents an additional problem by the interaction between Urantians and Uvantians.

On January 1, 1976, I was materially undoubled, and Me-2 went to Uvantia by space vessel for a mission of

(I) 2I years old.

7 1/2 months. Me-2 was reemitted (I) on Urantia in India on August 15, 1976. As to Me-I, on February 15, 1976, I took an Uvantian space vessel from France to Tibet and then to Bhutan (Uranbatia and Urankatia) coming back on the same day to my point of departure. In March 1976, Kosmika and Me-I went to India and to Nepal (passing through Moscow) and remained there until October 1976. During these seven months we met a relatively important number of people to which I taught the divine way of cosmic integration and who have changed their plans in order to devote themselves to the motive of their life on Earth, which is the qualitative betterment of beings.

On October, 1976, I was dematerialized in the Marmara Express train at the frontier between Bulgaria and Yugoslavia, in order to rematerialize myself in Israel (Jerusalem), then in Iran (Laristan), in Yugoslavia (Savnik), in Italy (Mestre, Milano, Torino), in France (Chambéry). There were meetings with certain human ascenders of the Reserve Corps of Destiny, and also with certain Midwayers and Master Seraphim of the Planetary Supervision.

On November 2, 1976, Kosmika and I met a couple living in the area of Saint Etienne (France) of whose existence had been communicated to me several years earlier. As to them, the image of my physical aspect had also been communicated and they recognized it when we met. This couple follows the way, but under a presentation differing from the one you know.

Since November 14, 1976 we are in Spain.

A fact, which I cannot yet explain to myself, possesses at a higher level a similarity with these communications. It happened on Monday 10 November 1975 at Jerusalem in Israel. Kosmika and I were taking a walk around noon in the old city when we were approached by a man. At first he asked me the common place question: "Where do you come from?" I answered as I often do: "From nowhere". He took it as a code and answered that he was in the same case. After what he saw me because he had received a photo-communication from two men, the first of which was named Khan, and the

other was myself. Now I was wearing the Kashmiri robe which he had received visually. He also told me that my glance was also the one of the communicated image. He invited us to drink in a bar and said that he knew certain things about me, and that he had appeared to me in a dream 3 days ago (but I did not remember). He advised me that I had made a mistake some time ago, and because of that Kosmika had fallen ill, but now I was O.K. While we talked, I captured his personal vibratory level which indicated that he followed the way and that his quality was high.

One week after our arrival in Spain in November 1976, and according to a communication of my Father Melkizedek received more than a year before, Kosmika and I united our material bodies, souls, and spirits in order to create a material human body as a basis for the being who shall be our human Uranian child. His personality and planetary action are not yet revealable. The communication of August 15, 1975 specified that this child would be born on August 21, 1977.

On December 1, 1976 happened an exceptional fact of systemic dimension. A communication advised me that I was wanted in Jerusalem because a meeting of certain cosmic Masters would take place about the affair which occupies the first place in the activities of the systemic administration. It is then that, for the first time in Satania, occurred a transfer of personality in particular conditions : I left my specially created material body and went to Jerusalem while my Father Melkizedek himself occupied this material body which I had received for my sojourn on Urantia. Kosmika had not been informed of the change. In spite of seeing the same body, she felt immediately that she was no longer in presence of the same person. Then Father Melkizedek told her about the events. This lasted from December 1 to 17, 1976, at which date I took possession again of this material body, and my Father Melkizedek returned to Salvington. During his short stay on Urantia with it, he took advantage of his special situation for contacting certain other cosmic Masters attached to the planet among whom were the Master Seraphim of the Planetary Supervision and certain Midwayers. He transmitted certain informations to them and had talks with them about certain points concerning various aspects of the situation on Urantia and their consequen-

ces from the present time until the year 2.002. So I took again possession of my material body on December 17, 1976, and four days later we settled in a certain place of the Spanish province of Cuenca, which will be our provisional general headquarters for at least 2 years.

Towards the month of February 1978, I think that I will have finished a set of communications which I must divulge to the Urantians and which will be presented in the form of a book. Its title will be : "The Records of the Humanity of the Planet Urantia." I think that our meeting will take place then if you have not been advised before to go to the very place where we are. Then I think that I can rely upon you for the general organization and the coordination of my planetary action in order to bring into being as validly as possible "Operation 1978" divulging by my written communications the present state of the Urantian humanity and my presence here, and proposing to establish on Urantia the "Planetary Cosmocracy ". It is the only type of society at the scale of a humanity which is cosmically ~~integrating cosmically~~ integrating, and thus the true basis for the reign of spirituality on any planet ; the spiritual teachings of the way of integration "The Crystal Lotus " is its name adapted to Urantia. One can say that 1978 will be the beginning of my " public ministry ".

According to the communication that I had received in August 1975 from my Father Melkizedek, our child was born on Sunday August 21, 1977, at seven p.m., 1983 years after Jesus. We gave to the boy the human name of Tonapa. So certain aspects of my materialized presence on Urantia have been communicated to you shortly and very superficially. I must confirm you that the period 1978 to 2.002 is crucial for the Urantian humanity because of the grievous events which are going to happen there. I must also tell you that because of my total disconnection from the other cosmic Masters of all kinds (except from my Father Melkizedek) I know nothing of you, since I have not yet met you materially. Thus I don't know what communications you have recently received.

Here are the events preceding my present coming on Urantia : At an epoch corresponding to the year 1870 of your planetary time a major meeting happened on Salvington upon

request from Mikael. Among others were present : Father Melkizedek, the Father of the Constellation (Lanaforge of Satania) and myself. The subject of this meeting was the planet 606 of Satania. Urantia had already been pointed out as one of the 37 deviated planets of Satania where the humanity had a global vibratory level of which the rate of qualitative degression was one of the fastest. Mikael, the official Planetary Prince, took a decision and conveyed it to me. He named me vice-manager Planetary Prince of Urantia, but he specified that this title was special and that in fact he did not allow me to act as such, except in case of immediate danger needing an instantaneous intervention. Mikael informed me of the plan that he had conceived for Urantia, whose deviated humanity was heading more and more towards the abyss of active cosmic disintegration. This very careful plan allows to do everything in order to restart the Urantian mortals on the right way of cosmic integration by guiding them in the best possible manner and, concerning the cosmic Masters attached to Urantia, to secure with safety the highest quality of planetary government and the maximum confidence of Mikael in them. By its extreme organization, this plan eliminates all the risks of complication, error, or mistake in the future readrd of Urantia. Thus the planetary supervision remains assumed by the Residing General Governor (member of the council of the 2+), and this normally until the year 1995 of your official Urantia time (U.T.).

During this meeting in Salvington, Mikael spoke to us of Urantia in details. Hereafter is a summary of certain points. At the beginning of his period of planetary supervision, in 1239 U.T., the thirteenth Resident Governor General issued a communication to the Council of the 2+ telling that he judged as very slow the planetary qualitative development of Urantia, and specially that the human evolution had passed beyond the threshold of acceptable deviation (As eleventh supervisor, I had already intended to make the same statement). The Council of the 2+ examined the case and declared " recognizing Urantia as having reached the first degree of qualitative vibratory degradation", and accordingly he appealed to Lanaforge of Satania. As a matter of fact, a given procedure of scaled appeals has been set in Orvonton about the planetary problems
