

Gloria Lee Los Angeles
"WHY WE ARE HERE" 1959

Question: What will happen to the animals during this transition?

J.W.: Most of the animals now inhabiting the planet are not in a consciousness suitable for the New Age, so they will be taken from their bodies at the time the masses are taken. They shall inhabit other spheres of life, for a time, until they incarnate on another planet or sphere of vibrations, similar to their growth or evolution.

When you reach the place where the so-called catastrophes may occur, the animals shall be taken. This is not to worry the people, for the animals are dear to God's Heart also. They will be well taken care of on the "other side" by those who look after such things.

The animal is Spirit, as is man, and will one day develop to the human form. But that will not be until the next Round or Cycle of the solar system. Then they will have evolved to a higher degree than they manifest at this time. When animals are destroyed physically on a planet, they are not destroyed spiritually, of course. They will inhabit other planes of life until there is a need for their particular manifestation in other worlds, perhaps outside of this solar system entirely.

When we see the Plan for the animals, we are happy. The same thing will happen to them that will happen to many people. They would not be able to stand the strain of the new vibrations. As their consciousness is raised in spirit, they will be taken to other worlds, to incarnate in other forms, perhaps, but will still be of the animal kingdom.

The animals which will inhabit the Earth in the New Age will be different from the animals you now know. They will be manifesting a higher degree of consciousness. Many will be quite lovable enough for house pets, such as the cat which will resemble the black panther you were told about before, Gloria. He will suddenly appear, probably in the South American jungle first. But this cat will be a vegetarian and herb eater. There will be no predatory instinct whatever in him. When he is discovered, men of your science will try to figure out from where he evolved and from what line of a known

cat family. However, he will be placed here as an entirely new form of animal.

Your future animals will be very few in number. You will never again see great herds running on the plains or in the mountains. That era of your evolution has passed. Man likes animals in a world, so there will be some left to begin with. You will not need animals for meat any longer. Vegetables of a protein nature will appear and replace the animal meat that has been eaten. Yes, it is necessary for all to take meat off their diet. This is a requisite if they are to enter the New Age vibration.

Some of the animals will be similar to the horse and some to the dog, not as the dogs you know of the present consciousness, but of a much higher consciousness. It will be found they will have highly developed telepathic powers. (Much more than the dog has today.) This will be quite novel for some people, who will enjoy practicing telepathy with them. This will not be for some time though. It may be as long as five years before these animals will become apparent. 1964

Once before in your past the animals were vegetarians, but as the planet became so negative and gross in manifestation, the animals too became gross. They became meat eaters and ate each other. This too had purpose, for again, balance had to be maintained in nature so the animal kingdom would not overrun the human kingdom. It would have been possible for that to happen had not this balance of nature been worked out.

The battle of strength, or the "law of the jungle," as you call it, is now almost over for this planet and will soon be a thing of your past. Animals will no longer seek to kill each other or have bitter enemies in their kingdom. There will be few of them, and man will appreciate the animal life more than he has under the influence of the Picean Age. Many cruelties have been committed by man to animals. Back in your unrecorded history, there were cruelties by the animals unto man. This was acknowledged by man in the Atlantean times by bombing the animal kingdom to destroy it. It was becoming a great hazard to the people.

You will find the Great Wall of China was built for this reason. Also a great wall in South America was built for the

WHY WE ARE HERE

purpose of keeping out animals, not the enemy, as has been thought. The large animals were of such grossness they were greatly feared by the people. These were similar to the prehistoric animals, as you call them.

When you take a good look at the walls of these old civilizations, you will see they are quite large, but they did not withhold man as described in later history. Man was not the cause of their being built. They were intended to keep out the meddling animals who often destroyed their crops and harmed the people. History does not record the original purpose of the walls. Only later history records the enemy attacking and the wall protecting the people. Lemuria did not have any large walls for this purpose, because it went under the water before the animal kingdom became so gross in nature.

Now your animal kingdom is not so bad that it cannot be controlled. Then, animals overran everything and caused great havoc to the people, but the great Lords of Mercy could see that a balance was needed. So it was the predatory animals were introduced into the animal kingdom, to seek a better balance. This cycle has now been completed and animals shall die out soon, to be replaced with newer forms of higher consciousness. They shall manifest love and great intelligence never before seen on this planet in an animal.

After you have fully entered the Golden Age, new bird forms of great beauty shall appear. The reptile kingdom will not disappear entirely. Regardless of your Earth thought, some of the reptiles are of a highly evolved consciousness and many species can withstand the new vibrational activity. This is not intended to worry some people who may think the Earth will become overrun with reptiles. The Earth mind, for some reason, does not appreciate the beauty in a reptile form, so few of these will remain. There will be none of the poisonous variety, though.

The mosquitos, ants, and what you term "annoying insects" will no longer bother you, for they are of a lower consciousness. The herds of cows and sheep which you raise for food will slowly disappear. It is not in tune with the Plan of the New Age that man should raise animals to eat. Fish will follow the same pattern of (survival or destruction, depending on how

high their consciousness is developed.) To the Earth mind this may be a surprise, but some are very highly evolved.

You must tell the people that this is Truth, for Truth must now be known if man is to progress. If they did not know of this, they would not understand why the animal life would be disappearing and they would think something horrible was happening and greatly fear. In reality, it is a blessing the animals are being taken to a vibration they can withstand.

By the time you are completely within your Golden Age so many things will be changed that man, now living here, will not comprehend all these amazing changes due to manifest. Not only will this be a blessing to the old animals, but the new animals will be greatly loved by the people. Hunting will no longer be a sport. This is a sin unto God, although it has been a necessity up to now for the Earth People. But hunting will no longer be regarded as a necessity under Aquarian law. The Earth plane will become very fruitful and plentiful with vegetables and herbs. This is the true diet of man, not the unnatural food he has concocted over the past few centuries.

Question: Exactly why is it so important to give up meat and watch the diet?

J. W.: It is very important that the people understand the reasons behind not eating meat. When meat is eaten, we see it manifested in the auric field as a "cloud" or shadow. This hinders the "light" that should shine through. When a person has a body of pureness, the light emanations, or the energies or lines of force, whichever you may prefer, automatically flow through. But when man eats meat, this grossness of the animal kingdom is taken on in the physical.

Even now, your physical is not of the same atomic structure it was five years ago. If the people would drop meat from their diet gradually, not at once if they are heavy eaters, but gradually, then they would notice a great difference in their reactions to the higher vibrations as the planet travels deeper into the Aquarian field. Meat, at this time, is a great hindrance to spiritual progression.

You have been instructed for some time now to change your
