EDITORIAL

I wonder how many people will have noticed the strange report on page 11 of the *Daily Telegraph* for November 24, 1997? ("CLINTON LOOKED FOR EVIDENCE OF UFOs.")

This story, from the newspaper's correspondent in New York, Charles Laurence, states that "when President Clinton appointed his friend Webster Hubbell to a job in the Justice Department, he told him that he wanted him to go through Government records & find out if UFOs existed. He also wanted to know who really assassinated President John Kennedy".

All students of "our subject" will recall that it is a matter of public record that, prior to their respective elections to the presidency, both President Ford and President Carter seemingly were totally uninformed "about UFOs" because both of them stated that, if they existed, they would proceed to see that the facts were made public. But, as everyone knows, neither of them appears to have done anything whatsoever about it after getting elected!

There is similarly evidence that the other presidents, from Truman to Ford, also knew nothing about UFOs prior to their own elections.

Now, the truly curious and interesting point about this current Clinton story is that he was patently already President when he asked Webster Hubbell to make enquiries for him. So, he was already President, and he still did not know!

Does this not constitute very powerful evidence that, although we may all imagine that the occupant of the White House truly is the most powerful man on this planet, he is -as many of us have suspected for a long time past -not really in charge here at all!

The conclusion therefore can only be that, as we have long ago heard rumoured, there is indeed a "shadow government", and that this "other government" is run by "Them".

How long is it now since President Clinton was elected? And yet he still doesn't know! Isn't it an absolutely astonishing blunder to let this information get out! Isn't this the basic 64-billion question that no terrestrial government dares to admit?

And doesn't it place President Clinton in some very special sort of danger?■

THE FINAL TRUTH ON THE "ALIEN CORPSE": NASA STEPS IN. © By Jorge Martín, Editor of Evidencia OVNI (Puerto Rico).

(Précis Translation from Spanish. G.C.) EVIDENCIA OVNI No. 11. (1996)

[The first part is merely a recapitulation of what we already reported in FSR, so I am giving only the gist of the second part. G.C.]

THE TRUTH AT LAST. Recently, when assisting a Japanese TV team to do a special programme on the "*chupacabras*", we interviewed a Puertorican police sergeant named Benjamín Morales, who has done 24 years in our local Police Force and was the assistant to Police Officer Osvaldo Santiago when the latter was investigating the case of the "little critter."

Sergeant Morales told us the same story we had heard before, namely that the lad "Chino" and his friend had come upon a whole group of the little creatures in a cave near Las Tetras de Cayey; that one of the creatures had seized hold of "Chino's" leg, whereupon "Chino" picked up a stick and killed it. Morales himself had seen and examined the "critter" and was adamant that it was no human foetus, no
