

In our series of articles to examine the state of play for UFOs in the new Europe, we continue with the smallest but perhaps most influential country, the Vatican City. It has existed as an independent state, since a treaty between Mussolini and Pope Pius XI in 1929.

In FSR 52.3 we revisited the story that there were organised formations of UFO that repeatedly flew over the Vatican on 6-7 November 1954. The Vatican observatory at Castel Gandolfo (a lakeside town in the hills outside Rome where the pope has summer residence) was also over-flown on 12th November 1954. In FSR 52.2 we revisited the well known tale of the 1963 Vatican meeting of George Adamski with Pope John XXIII, just before his death. Alongside there must be a steady stream of information arising from Central and South America with strong Vatican links. With so many global diplomatic missions it seems inconceivable that the Vatican is not being kept fully informed on the world UFO situation.

In popular ufology the influence of the vatican is often alluded to as a key player in the shrouded diplomacy that passes between the world powers over the UFO question. This rumour is re-enforced by the alleged confessions of a Jesuit working for the Holy See in Rome who alleged that there is a special vatican intelligence organisation that, S.I.V. "Servizio Informazioni del Vaticano" which in Italian means "Vatican Information Services."

"The Omega Secret" "Secretum Omega"

by Cristoforo Barbato (Copyright 2006, Cristoforo Barbato)

Translated from Italian by Robert Morningstar and Matteo Sarti

During the conference I spoke about underground bases in the USA and dedicated the last fifteen minutes of my speech to a very short summary of my work during last five years that had gone in a new direction and is the leading topic of my future lectures. In the year 2000, I was working in Rome as an editor in the "Stargate" magazine and I wrote many articles about the Fatima Apparitions that took place in Portugal in 1917 and their famous Third Secret, as well as, other Vatican State-related mysteries. After the initial publication of these articles, I started to receive many e-mails from a person who identified himself as a Vatican insider. The mysterious man attempted to contact me anonymously and intermittently because he was interested in me and my research into Fatima.

From those e-mails, a story emerged regarding an enigmatic Vatican Intelligence Agency named "S.I.V.", a code from "Servizio Informazioni del Vaticano". In those letters, there was interesting information and in one of these he advised me that I would receive a video tape about observations of a presumed "10th Planet" coming closer to our Solar System. The video was taken by a space craft, part of a deep space program, started in the early 1990s, called "Siloe."

Through these details, I understood that the writer knew much more information than he was relating to me. For about one year, there were informal contacts via email and postal letters during which he revealed to me that he was a Jesuit member of "S.I.V." and worked in Rome for a certain department of the Holy See, which I verified without his knowledge. Subsequently, I was able (with great difficulty) to arrange the first personal meeting in a public location in the capital (Rome) during which he continued to reveal more information to me.

I greatly desired the first personal meeting, which occurred in 2001, as a condition "sine qua non" because until then I was obviously sceptical (dubious) and untrusting of him even though the information and the video tape were interesting. It was during that meeting that all my doubts completely disappeared when he showed me his credentials, some of which corresponded with what I had previously checked out by myself. In addition, he revealed to me that he was authorized to supervise the so-called "Secretum Omega" ("The Omega Secret"), the highest secrecy category in the Roman Catholic Church, equivalent to (the military's) "Cosmic Top Secret" in NATO.

As prearranged, the dialogue between us was structured in a question and answer form with a stated agreement that I would pose precise questions. Although the format of the meeting was respected (despite my desire to ask various different questions) in the short time available, some of his answers reversed the original setup regarding some subjects. However,

the following conversation still represents the main part of the dialogue but not all of it because I decided not to reveal some of the details for the moment.

The Interview with "The Jesuit"

Barbato [B]: How did you become a member of S.I.V. (Servizio Informazioni del Vaticano)?

Gesuita [G]: The S.I.V. is composed of different elements, all of which are connected to the Church and mainly composed of at least the Directorate, of priests, the majority of whom are taken from the Jesuit Order, Benedictine Monks and Nuns; in total, a few more than 100 members.

There could be fewer members but if one considers all parts of the world where there is a priest or a nun, each is also a potential source of precise information. Some elements of S.I.V. were and are taken from lay areas and institutions internally connected to the Church, for example humanitarian associations, political groups close to the Holy See, "young Catholics" movements and others. My background was similar to these.

Briefly, the members were secretly overseen, directed and formed according to determined criteria in certain fields. Nowadays, all of us realize subsequently that we had a personal "guardian angel" or mentor.

[B]: Could you give us more details about S.I.V.? Why was it created and how long has it been active?

[G]: The structure is "Top Secret" but for the moment I can tell you that it is organised in a manner analogous to other intelligence organisations like CIA, MI-6, the KGB, etc. doesn't have an official seat but new a location for reunion is chosen from time to time, always under the oversight of the Vatican City. From a chronological point of view, the spark which ignited the start of said organisation, was caused by an event during the first half-decade of the 1950s in the

This event was the meeting that occurred in California at Muroc Airfield (which later became Edwards Air Force Base) of an alien delegation with the President, Dwight D. Eisenhower, attended by the Bishop of Los Angeles, James Francis McIntyre.

The meeting was filmed by the military with 3 16mm cameras, placed at different points, loaded with colour film and spring drive motors; that is because each camera operator had to change the film every 3 minutes and because in the presence of the aliens, electric motor did not work. In total they shot 20 minutes of film in 7 rolls, each of them 30 meters in length.

At the end of the meeting, each member of the Earth delegation swore never to reveal to anyone what he had seen and what he had heard about the aliens. Don't ask me where the film is because I think that you must know the answer. Anyway, some days later, McIntyre, probably disappointed to have sworn himself to secrecy, departed in a hurry with the goal of meeting with Pope Pius XII to inform him of the incredible event.

But in order to reach Italy, Bishop McIntyre had to fly first to New York and then proceed to Rome, always in private aircraft. About half an hour after take-off from Los Angeles, the airplane suddenly experienced technical difficulties and was forced to make an emergency landing at Sky Haven Airport, Las Vegas, NV during the night. During the time that the airplane was being repaired, a certain person boarded the airplane to confer with the Bishop. The man presented military credentials of the US Armed Forces, a colonel in the USAF, and was received by McIntyre. The conversation lasted 20 minutes during which time this man dissuaded the Bishop from revealing all the details of the meeting in which he had assisted because all the alien matters had already been studied for many years exclusively by the USAF. The military emphasised that the President had just requested a spiritual opinion and above all an understanding in a situation so anomalous and that his oath of secrecy also included the Holy Father. Not the least of which concerns was the internal infiltration of the Vatican by Soviet spies. The Bishop replied that it was precisely his intention to inform the Pope of the incredible event.

We now believe that the engine problem was previously and intentionally created in order to bring about that meeting, probably organised by certain military officers without President Eisenhower's knowledge. Before departing the military told the Bishop that notifying Rome would create great problems for him and for his safety, which could cost him much. Furthermore, they couldn't know yet if some divine message had predicted the meeting with the aliens.

Two days later, Pope Pius XII received Bishop McIntyre. After having meditated deeply on the possible implications of an exclusive military relationship with the aliens, the Pope decided to create a secret information department with a structure similar to the fascist military intelligence departments, to be called S.I.V. that would gather all possible information regarding the activities of the alien entity and information acquired by the Americans. It was very important to keep open channels of communication with President Eisenhower.

The S.I.V. was basically constituted to acquire and to manage all secret information above all regarding alien activities and matters, coordinating with other intelligence organisations in other countries. The main goal of the newly formed department was to manage all aspects of the moral, philosophical and religious points of view.

[B]: What made the Pope believe that the American military would have shared such sensitive information with the Vatican? What about the military man who appeared at the airport in Las Vegas?

[G]: Understand, that meeting convened in the middle of the night by the President of the United States, seeking aid and spiritual support in a situation, unique in the entire story of humanity, I believe was a sign of esteem and trust. In confirmation of this, I tell you that upon returning to the United States, McIntyre and Archbishop Edward Mooney of Detroit were later the principle coordinators of the operation passing the information to the Vatican. But these events took an unexpected turn because McIntyre and other S.I.V. members began to have direct contact, in essence without the knowledge of the military, with an alien race of the Nordic Type, apparently benevolent, coming from the Pleiades. These aliens advised to be careful with the other creatures encountered by the Americans in the California desert. These meetings with the members of S.I.V. happened many times in the United States and twice also inside the Vatican Gardens near the Pontifical Academy of Science, in the presence of Pope Pius XII.

[B]: Now, Padre Pio of Pietralcina spoke about the existence of other living creatures in other worlds that had attained a higher evolutionary state because they were without sin... Is that true?

[G]: Without a doubt, but these beings, which you refer to, live in a different dimensional plane, different from in not being the angels in the true sense of the word, while on the other hand the Nordic Aliens that I spoke about previously have flesh and bone, even though they are very evolved to a technological and spiritual point, they still have bodies. These creatures announced to have discovered in the Catholic Church, more precisely in the message of Christ, the pure presence of God and they offered to cooperate, themselves, for the good of humanity.

That firm affirmation on the part of these beings convinced Pius XII to collaborate with them and to consider them as authentic converts to the Christian faith. The Pontiff probably realized that the Universal Church should communicate its message even to beings coming from other worlds. Besides, these aliens through the years were determined to assist the Church of Rome in all its missions, particularly, in determining the character of social and political situations internationally.

(Author's Note: I suggest that you read what Alberto Peregó wrote during his time as Vatican Consul in some of his books.)

Thereafter, even Pope John XXIII benefited from the support of these beings who had espoused the Christian cause but he always preferred to keep it secret speaking solely of "angelic intervention." Pope John XXIII had inherited, in a manner of speaking, an agreement for collaboration between the Holy See and these beneficent aliens of the Nordic Race as stipulated by his predecessor. This situation (the secret agreement) endured throughout the Pontificate of Angelus Giuseppe Roncalli, who many times expressed to the leaders of S.I.V. his fears regarding investing too much trust in these beings. That's why today we believe that one of the main reasons for convening The Second Vatican Ecumenical Council was the need to take a first concrete step toward the renewal of the Church, in view of the possibility of immanent contact.

www.stjames-cathedral.org/Prayer/vatican2-1.htm

[B]: Can we include in this intervention or "celestial mediation" the presumed contact that happened in 1963 between

[G]: I was just getting there. Adamski really met the Pope. He went to St. Peter's just once to meet the Pope who at that time had already decided that the Church ought not entertain any further direct contact with these aliens, even if they were positive. Furthermore, John XIII found it unacceptable to reveal this relationship to the Christian populace. The assignment that the aliens commissioned to Adamski was to try to attain a final agreement with the Pope, who was dying. Adamski was a messenger for those aliens who met with the Pope through him. These beings ordered Adamski to deliver a gift to the Pope. The gift contained a liquid substance, which would have saved the Pope from gastric enteritis, which afflicted him at that time and, worse, in his last hours became acute peritonitis.

The Pope did not drink the substance and said before dying as he beheld the Crucifix.

"Quelle braccia allargate del Cristo sono state il programma del mio pontificato. Un pontificato umile e modesto quanto volete, ma di cui mi sono assunto tutte le responsabilità. Sono contento di quello che ho fatto e di come l'ho fatto...."

"The open arms of Christ were the purpose of my pontificate. A humble and modest pontificate as you see, for which I assume all responsibility. I am satisfied in what I have done and how I have done it."

● <http://www.medaloffreedom.com/PopeJohnXXIII.htm>

Moreover, this gesture on the part of the aliens convinced the dying Pope, with little lucidity and energy remaining, that the "Space Brothers" might surely conduct positive and benevolent activities toward humanity but that they should operate autonomously and distinctly from the Church and, in general, from human activities, with prayer, actions according to the Law of God and, in particular, under the direction of the Holy Spirit.

Adamski's attempted mission ended direct contact between these beings and that Pope and his successors, trusting in the insight of John XXIII who established that it was not allowed to have direct contacts. Later in a secret manuscript from Pope John XIII (Angelo Giuseppe Roncalli to his successor, which contained one special dossier about "Servizio Informazioni del Vaticano", the Pope mentioned a passage from the Gospel (of Mark) that clearly explained the position of the Church regarding these benevolent beings coming from other worlds.

Dal Vangelo secondo Marco (9, 38 e seg)

In quel tempo, Giovanni rispose a Gesù dicendo: "Maestro, abbiamo visto uno che scacciava i démoni nel tuo nome e glielo abbiamo vietato, perché non era dei nostri". Ma Gesù disse: "Non glielo proibite, perché non c'è nessuno che faccia un miracolo nel mio nome e subito dopo possa parlare male di me. Chi non è contro di noi è per noi. Chiunque vi darà da bere un bicchiere d'acqua nel mio nome perché siete di Cristo, vi dico in verità che non perderà la sua ricompensa".

From the Gospel of Mark 9: 38 ff:

"At which time, John responded to Jesus saying: "Master, we saw a man who was casting out demons in your name and we forbid him because he was not one of us."

But Jesus said: "Forbid him not, for there is no man who shall do a miracle in my name that can then lightly speak evil of me. For he who is not against us is for us. For whosoever shall give you a cup of water to drink in my name, because you belong to Christ, verily I say unto you, he shall not lose his reward."

● <http://archives.cnn.com/2001/WORLD/europe/03/24/pope.ex.humed/index.html>

The meaning, in essence, was that the presumed positive activities of these aliens, who accepted the Christic message, should be "blessed" and not opposed (or obstructed) but always kept distinct and parallel to that of the Church. These aliens should be considered as the stranger who rescues in the name of Christ and who should not be impeded from doing so.

In this course, we could interject the speech, which the new Pontiff gave, in succeeding the late Pius XII, as he proclaimed publicly on the 5th of April, 1961 in St. Peter Plaza before a general audience, saying:

"Some voices were previously unknown. But this concerns voices, descending from the sky to the Earth, voices which possess and reflect the omnipotence of the Heavenly Father."

[B]: Let's talk about your tasks on the S.I.V scene.

[J]: My tasks were purely technical, the most important of which were, for example, to take extremely secret information coming from a Vatican radio telescope located in Alaska and forward it to respective destinations.

[B]: Just a second, but to which radio telescope are you referring? I did not know that the Vatican owned such a structure in that area.

[J]: The Vatican owns and utilizes an extremely advanced radio telescope that is in the vanguard of systems and technology and is only used by Jesuits. It is located inside an industrial park used to store petroleum, apparently abandoned, situated in the state of Alaska. This complex is camouflage because officially the activities that go on inside are not those of the VATT in Arizona and are kept "Top Secret."

** **Translator's note:** I have found a HAARP test application that could possibly be used in a search for Nibiru. HAARP is located in Gakona, Alaska. See "Lunar Radar Experiment": <http://www.nrl.navy.mil/content.php?P=04REVIEW106>

[B]: When was that apparatus built and, above all, what end in sight did the Vatican have in owning so many other astronomical sites around the world?

[J]: What I can say is that it was built in the 1990s with the object of studying all anomalous celestial bodies approaching Earth, similar to what the CIA did with one of its "secret eyes," the twin to Hubble, called "Sky Hole 12" (a.k.a. Keyhole 12 For details see: <http://en.wikipedia.org/wiki/KH-12>).

Moreover, the S.I.V. was informed during the meetings (of the aliens) with Pope Pius XII of the approach of a celestial body to the solar system in which resides an advanced very warlike alien race. Very shortly, I knew that the material that I should have been receiving in Rome and then analyzing on a computer was very interesting and extremely secret. It was during the analysis of certain data and information from the Alaska radio telescope that we discovered that one remote deep space probe, part of a deep space exploration program called "SILOE", which was started in 1990 had taken a photograph of a huge planet getting closer to the Solar System.

The information was received in Alaska during October 1995, which is when my problems started. I discovered that I was not chosen to decode that particular transmission and a dangerous situation evolved. At that time, my contact revealed to me that, inside the Vatican, there were two factions struggle over possession and control of this information, which was classified far beyond "Top Secret."

[B]: Can you give me some other details on the space program called SILOE? Who proposed and launched it?

other technical information at the moment.

[B]: I would like to ask you about a well-known religious legate to the Church. I am referring to Monsignor Balducci who publicly spoke about the extraterrestrial themes. Is it possible that Balducci is working in concert with S.I.V.? And that he has knowledge of its existence?

http://www.pufoin.com/pufoin_perspective/et_church.php

[J]: Surely Father Balducci made his studies and his research in a totally autonomous manner without following any pre-existing established program. During his research, he was never obstructed. On the contrary, in certain ways he was actually encouraged.

[B]: Just a moment please, it seems to me understanding your words that there exists a program for disclosure. And, maybe, for this reason could it be that you decided to meet me and reveal this information to me?

[J]: The probe called "SILOE" takes its name from an identically named program of space exploration begun in the early 1990s. Furthermore, regarding this, I can add that this program was part of another one, much wider in scope, named "Kerigma." (Author's note: Regarding the latter ("Kerigma"), nothing was revealed to me.) For now, I can just tell you that this probe was created in Area 51, has an electromagnetic impulse motor, and it was put in orbit by a space plane, like type "Aurora." The probe did not have any calculations or pre-indications of the trajectory or the precise location of "Nibiru," because its purpose was to approach that planet, correcting its direction to avoid impact and to return to this Solar System to a position close enough to transmit the data and images to the secret radio telescope located in Alaska. The probe was launched as soon as the radio telescope was and the probe was capable of transmitting images in 1995.

[B]: What I am hearing from you reminds me of some theories formulated by researcher, Zechariah Sitchin, regarding the future return of the mysterious 12th planet. Do you know this work?

[J]: Yes, I know about the principle aspects. What I can say is that S.I.V. in collaboration with Lockheed Martin launched that probe, which made the images that I later analysed. These images are of an enormous celestial body whose presence will "felt" within at most 3 years from 2001 in our Solar System.

[B]: How did you get access to such information?

[J]: Actually, I possess an authorization for the supervision of the so-called "Secretum Omega." This is the highest classification of secrecy in the Vatican, equivalent to "Cosmic Top Secret" in NATO. This is subdivided into 3 levels of information: from the least detailed, Secretum Omega Level III to the Secretum Omega Level I, which is the most complete. My actual goal was to indoctrinate new members of S.I.V., teaching them the use of the communication systems of this organisation.

[B]: How is the information collected by the radio telescope in Alaska relayed to Italy?

[J]: There are some radios and antennas linked to two geostationary satellites over Italy, property of an American telecommunications company, Sprint International, which owns parabolic antennae located in Italy, in the north and in the extreme south. This company has a special contract with the S.I.V. and a private channel broadcasting and receiving enciphered data using private algorithms and personalized cryptography, used since 1994. Before this, the S.I.V. utilized a cryptographic system invented by a Swiss society, which was subsequently abandoned because one of the members

[J]: We are "crazy splintered", according to the system, but we know that certain events are going to happen to all living beings on the planet; no one is excluded. All humanity in this actual period of history is living in a particular circumstance and intimately linked to some key events contained in the Book of the Apocalypse. The human race must surrender completely to the message of salvation and redemption of Christ, which St. Paul defined as "Kerigma," a message that John Paul II is trying to spread to all nations. Don't you think that the Pope knows how close these events are to us?

[B]: But how much does the Pope know about all this information, also in view of the passionate declaration that he made from this year? (Author's note: the year is 2000 specially concerned the official trip to Fatima for solemn beatification of seers Francisco and Jacinta)

[J]: Inside the Vatican there are two different groups struggling one against the other with counter positions; one of these promulgates disclosure of this information program and is defended body and soul by Wojtila (Pope John Paul II), the other tried to block any information from getting out by any means, to the point that some members of this faction take part in occult power groups. For example, they control the world oil market, actually working in many international economies with the sole purpose of blocking any disclosure of any alternative free energy sources. Groups like that behind the famous and controversial "The Guardian UFO Case" of which you know, dramatically authenticated this information in great measure with the exception of photographs of presumed alien entities.

Anyway, these documents and information describe a real situation. Reality often surpasses the craziest fantasy. Unfortunately, this is the case. And of all these occult organisations, the apex is the SVS.

FSR COMMENTARY: Barbato's interview with the Jesuit warrants even more serious attention to the Holloman encounter. It is alleged that February 11th 1955 represents an intriguing dual dateline for the beginning of both the U.S. Presidency and the Vatican's alien dialogue.

The Jesuit then moves on to a totally new allegation; the existence of 'Planet X.' He states it has been discovered using a special space probe launched on a secret Vatican scientific payload. Looking at the film extract a still of which is included in this article, it has all the trappings of a classic piece of disinformation, passing on a notorious myth alongside a highly plausible UFO story. The Jesuit meeting and interview took place in 2001, ample time for the three years mentioned in which the presence of planet X was due to be felt. This chronology was identical to the one predicted by Zechariah Sitchin in 1976 when he wrote The Twelfth

"Sitchin's case originates in an Akkadian cylinder seal from the third millennium B.C. found in the Vorderasiatisches Museum in (then East) Berlin

A portion of it features a six-pointed star surrounded by eleven dots of varying size; Sitchin judged that the star symbolizes the Sun and the smaller elements are supposedly planets, including the lost 12th world."

Sitchin states, Nibiru was a planet ejected from some other planetary system in outer space that was captured into our Solar System as it passed near Neptune. It became involved in a collision with a pre-existing planet where the debris of the Asteroid Belt is now. As a result of that collision, some 4 billion years ago, the Earth and the Moon came to be where they are now.

Sitchin saw the Sumerian/Akkadian texts such as Enuma Elish (also called the Babylonian Epic of Creation as not merely a mythological tale but a record of an ancient claim that Earth had been visited by Extraterrestrials, the ANUNNAKI "Those Who from Heaven to Earth Came" of Sumerian lore. Many who advocated this theory imagined that Nibiru, Planet X, was to return in spring 2003 concluding it's 3600 year anti-clockwise round trip. Sitchin later wrote that he saw Nibiru more as a metaphorical trigger for awakening to a higher consciousness.

"Nibiru is the home of the Anunnaki, the Nephilim, the Elohim, the Gods, and the Giants of the Bible; Those Who from Heaven to Earth Came. They are supposedly a Reptilian Race."

<http://www.sitchin.com>

FSR Commentary: latterly Sitchin's position was one of distancing himself from the idea of a violent or sudden return of Nibiru to our solar system. The latest information from Japanese astronomers in the following article suggests that there is definitely room for a potential Nibiru on a highly elliptical stable orbit around our sun. It could also be conceivable that Nibiru is the dead companion star to our own sun. Whatever this hidden object is, it could be entirely new and unexpected, and perhaps it could have once been a super massive collapsed object that could be parent to an attendant wormhole anomaly somewhere out there. Perhaps this fanciful hypothesis would answer why we are so well visited despite our peripheral and relatively remote unimportant geographic position in our galaxy. As to the truth behind any planet X theory, the conclusion of the following piece may draw new light onto a glaring Vatican link within the Jesuits story and the secret intrigue behind the Siloe probe myth. Was it sitting right there under our noses?

The latest research on the discovery of a planet X.

Jason Martell Xfacts.com UFOstream.com

For over 15 years, Jason Martell has been one of the leading researchers and lecturers specializing in ancient civilization technologies. In addition to his research, Mr. Martell is a computer programmer and senior software developer having worked with leading technology companies including Intel, HP, Cisco, and Blue Martini.

Recently in 2008, Japanese Astronomers at Kobe University led by Dr. Mukai (below) have plotted a planet with a diameter at least the size of earth that could exist in our solar system on a highly elliptical orbit.

This once again raises the Astronomical community eye to the question of a planet x, another planet in our solar system beyond Pluto. Throughout modern astronomy we have references to a

cited as the cause to explain anomalies in the orbital patterns of the planets. Since the late 1980's with the research of Dr. Harrington, Planet X has been knocked back and forth as to whether or not the planet actually exists. Only recently in the year 2004 and beyond did we start to discover new "planetoid" bodies floating beyond Pluto. Some of these like Xena, or Qaorar are nothing more than large chunks or mainly ice. Not to be considered planets.

So what is so important about a planet x?

Pluto was only discovered in 1930, and even then orbital perturbations were detected which lead them to believe a yet undetected large object is still out there affecting the orbits of
