ENTITIES FEATURED ON THESE TAPES

GERMANE considers "himself" to be a nonphysical group consciousness. He claims that he represents a future integrated version of the galactic family of which we are all a part. He chose the name "Germane" because in English it means "coming from the same source." He is not the "St. Germain" that is channeled by other channels. The term "he" is used in reference to Germane for convenience only. Germane is actually a group and refers to itself as "we."

SASHA says she is a physical female from the Pleiades. She is about five feet tall with light-brown shoulder-length hair and large light-brown almond-shaped eyes. She calls herself a cultural engineer and specializes in opening contact with planets who are ready to enter the galactic community. She considers the channel (Lyssa) to be a past reincarnational self and therefore she maintains an emotional connection with the Earth.

BASHAR is from the Essassani species, a hybrid race resulting from the genetic experiments of the Zeta Reticuli and humans. Originally channeled by Darryl Anka, Bashar came through Lyssa for a specific 2-year period.

AKBAR is an Orion mystic, priest, and teacher from a period of Orion history that he calls the "Orion Dawn" -- the period of healing and restructuring that followed eons of conflict in the Orion system. His discourses mostly focus on conflict resolution, Orion sexuality, Orion society, and what we can learn from the Orion conflict.

HARONE is from the Zeta Reticuli species who are known for their "abductions" or "detainments" of humans. He claims that he is not part of the actual genetic experiments themselves, but has a wealth of knowledge about the abductors and the purposes of the genetic experiments. His channelings appear in the book *Visitors from Within* and on several tapes.

OTHERS INCLUDE: **ANIMA** (a female Essassani) who appears on Tape #95 discussing Essassani sexuality; **MERLIN** (Magician) discussing magic and other topics; and **CAHNA** (Dolphin) who, on Tape #96 talks about the nature of dolphin sexuality; **MINTAR** (Tape #44) is an Orion priest and resistance fighter during the dark times of Orion.

This is an introductory book which examines the idea of creation in a different light. In contrast to the notion that humans are the result of creation, it explores the idea that the collective humanoid consciousness (our soul) created our universe for specific purposes.

What are those purposes? Who is involved? These questions and many more are addressed, resulting in startling possibilities.

The Prism of Lyra then traces various developing off-planet races (such as the Pleiadians and Orions) through their own evolution and ties them into the evolving Earth. Highlighted is the realization of our galactic interconnectedness and our shared desire to return home.

Explore with us the passage through ...

THE PRISM OF LYRA!

Lyssa Royal and Keith Priest reside in Scottsdale, Arizona where they continue to research and distribute their material worldwide. Though a significant portion of their work is focused on the subject of extraterrestrials, they also are devoted to presenting information that will empower the individual. The practical applications of their material is of the utmost priority to them.

THE LOGO

Many people have asked what Royal Priest Research's logo stands for. Several years ago we gave artist Michael Tyree some symbols that had meaning for us and asked him to incorporate them into a logo. Within this logo, you will find several symbols: The ankh, representing eternal life; the moon, representing the subconscious, birth, memory; and one of the most ancient words for God - the Sumerian picture-word DIN GIR meaning "pure ones of the bright, pointed objects," or "people of the rocketships." Therefore to us, the logo means: "Knowledge of our ET heritage rising from the subconscious will allow us to understand our divine birthright to eternal life." Since this was denied to us in the ancient past by our ET forefathers, it will now help us to recognize our direct relationship to the Creator and to all of creation.

A NOTE FROM LYSSA & KEITH

We would like to thank you all for your support of our material! During the last six months, Lyssa has traveled extensively (Mexico, Guatemala, Japan and Egypt) and so our latest projects have been delayed considerably. However, we do plan to have at least one more book published in 1993; perhaps even two. Right now we are working on 3 separate projects for eventual publication. Here's a preview: Our intention as this goes to press is for two more books based on Lyssa's work to be published (both projects are already begun). For now, we'll tease you by saying that we are keeping the subject matter under wraps...but we promise you captivating information! We also will be publishing one, maybe two books by other authors; and finally, we are in the third year of research & development of a system of tarot (based on *The Prism of Lyra*) which can read your galactic heritage. Stay tuned!
