

Appendix E

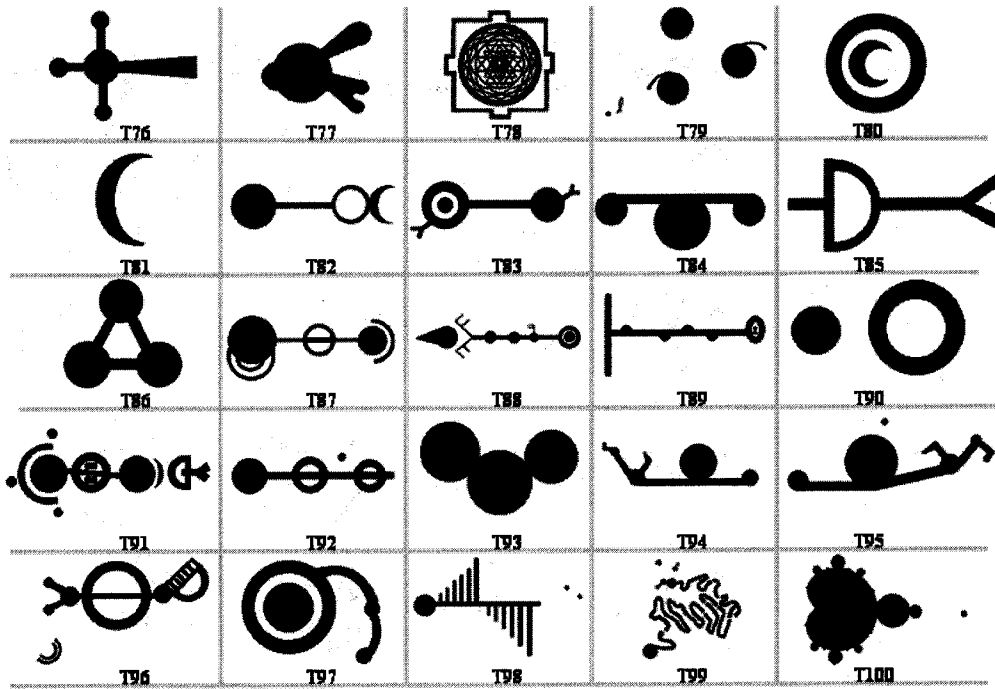

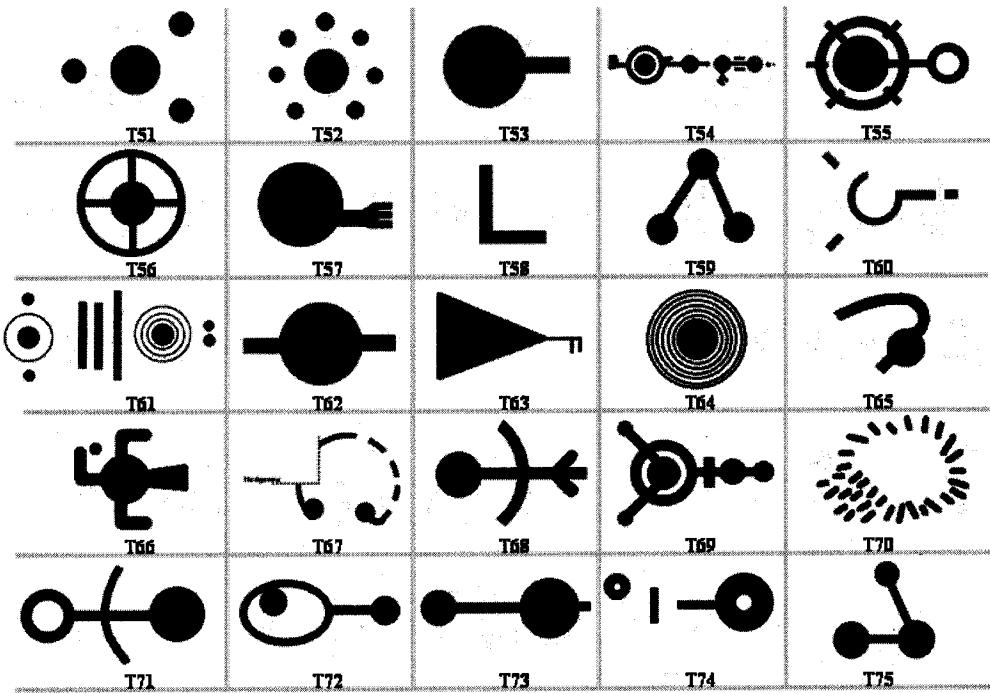

The Andrews Catalog

COLIN ANDREWS : "CROP CIRCLES, SIGNS OF CONTACT"
CAREER PRESS, USA, 2003, 239 PAGES

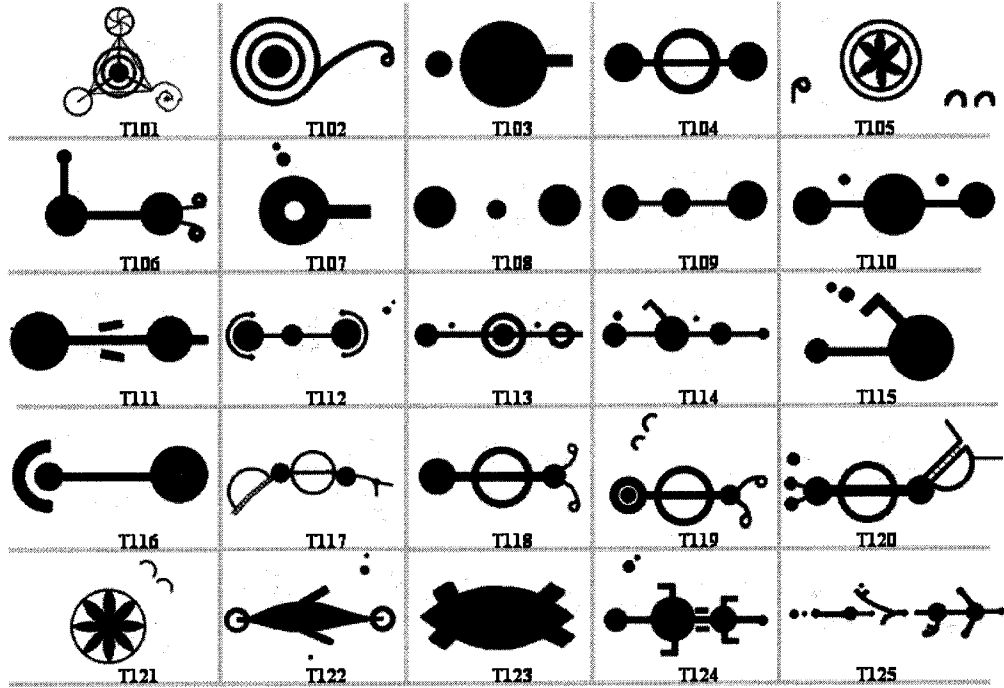

I established the Andrews Crop Circle Catalogue system in 1983. Each crop pattern is assigned a specific "T" number. I have included designs for all the crop formations I have come upon during my research over the years, be they authentic or manmade. The designs are not all drawn to scale, although many are. Some patterns have appeared many times in various countries.

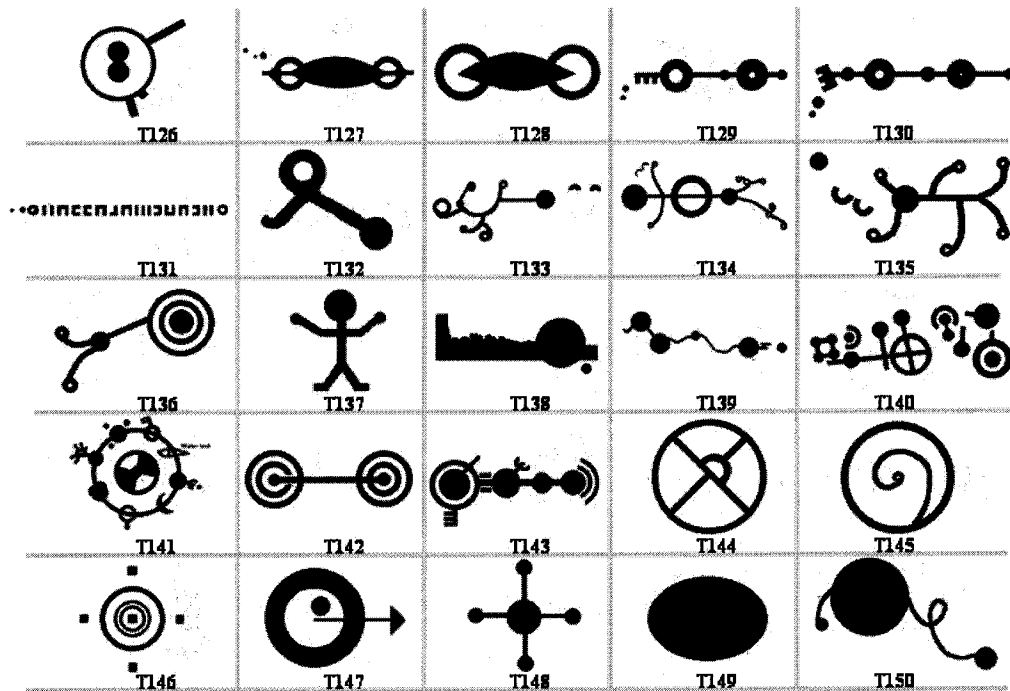

A companion pamphlet to the *Andrews Catalogue* is available. This stand-alone publication provides the location, month, and year of appearance of every design shown. For more details, contact either of the authors through their Websites (See Appendix D) or through the publisher.
